Eric Jones, Full-Stack Software Developer

Roxheim, Germany, +49(0)1751436829, eric.nathaniel.jones1@gmail.com

	<u>Github</u> , <u>LinkedIn</u>			
PROFILE	A highly skilled and dedicated IT professional with over 25 years of experience in telecommunications and network engineering. Demonstrated expertise in designing, implementing, and maintaining complex network infrastructures. Currently expanding skillset through a full-stack software development course, with completion expected in November. Adept at collaborating with cross-functional teams, managing projects, and delivering exceptional results. Committed to staying current with industry trends and leveraging technical knowledge to drive innovation and improve end-user experiences.			
EMPLOYMENT HISTORY				
Jan 2011 — Dec 2019	NOC Tier 2 Engineer, euNet	works		Frankfurt am Main
	•Operational support within various WAN, VLAN, and MPLS infrastructures in a Telecoms/ISP environment (CWDM & DWDM networks).			
	• Configuration and troubleshooting of layer 2 issues via command line.			
	•Monitoring of the layer 1 and layer 2 network via network operation control center tools.			
	•Reacting to network alarms and alerts in order to provide proactive notification of issues to customers.			
	• Escalate issues in a timely and effective manner to management and to the technical authority.			
	• Proactively identify opportunities for improvement or areas of risk within the working environment.			
	• Managing access to the network to ensure all work is controlled and understood.			
	• Provide Tier 2 technical support to customers and internal departments.
